Independent Auditor's Report

To the Honorable Mayor and
Board of Trustees
Village of Peoria Heights, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Peoria Heights, Illinois (Village) as of and for the year ended April 30, 2017, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion

The Village of Peoria Heights, Illinois has not presented or disclosed information in connection with potential liabilities for other post-employment benefits as required by Governmental Accounting Standards Board (GASB) Statement 45, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. The amount by which this presentation and disclosure would affect the financial statements is not reasonably determinable. The Village has also omitted disclosures required by GASB Statement 67 *Pension Disclosures* for the Police Pension Fund. The amount by which this disclosure would affect the financial statements is not reasonably determinable.

Qualified Opinion

In our opinion, except for the effects of the matters described in the “Basis for Qualified Opinion” paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Peoria Heights, Illinois, as of April 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 49 and 50 and the pension information on pages 51 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Village has omitted the management’s discussion and analysis, the schedule of funding progress and the schedule of employer contributions for the Police Pension Fund that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Peoria Heights, Illinois' basic financial statements. The combining and individual fund financial statements and schedule of property tax rates, extensions and collections and assessed valuations on pages 56 through 69 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedule of property tax rates, extensions and collections and assessed valuations are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedule of property tax rates, extensions and collections and assessed valuations are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS

**RECONCILIATION OF THE GOVERNMENTAL FUNDS
STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES**

Year Ended April 30, 2017

Total net change in fund balances - governmental funds	\$	(58,792)
--	----	----------

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Below are the depreciation expense and capital outlays for the year:

Capital outlay	\$ 199,966		
Depreciation expense	(404,354)		
Loss on disposal of capital assets	<u>(178,960)</u>		(383,348)

Proceeds from the issuance of loans payable and bonds payable are recorded as other financing sources in the governmental funds but increase long-term liabilities in the statement of net position:

Loans payable	(515,407)		
Bonds payable	<u>(1,676,362)</u>		(2,191,769)

Repayment of long-term debt is recorded as expenditures in the governmental funds, but the repayments reduce long-term debt in the statement of activities

211,935

Interest on long-term debt is reported when paid in the governmental funds. However, in the Statement of Activities, interest expense is recorded when incurred.

(2,182)

Governmental funds report pension contributions as expenditures when made. However, in the Statement of Activities, pension expense is the cost of benefits earned, adjusted for member contributions, the recognition of changes in deferred inflows and outflows of resources related to pensions:

Pension contributions	54,530		
Pension expense	<u>(32,042)</u>		<u>22,488</u>

**CHANGE IN NET POSITION OF GOVERNMENTAL

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Peoria Heights, Illinois (Village) is a governmental entity located in Peoria County, Illinois. Revenues are substantially generated as a result of taxes assessed and allocated to the Village (examples would be property taxes, sales taxes, income taxes, and motor fuel taxes), charges for services performed for constituents of the Village and governmental grants. The Village of Peoria Heights, Illinois revenues are therefore primarily dependent on the economy within its territorial boundaries and nearby surrounding area. Taxable industry within the area is primarily manufacturing and retail.

The Village was incorporated in 1898 under the provisions of the State of Illinois. The Village operates under a Board of Trustee form of government and provides the following services as authorized by its charter: public safety (police), streets, public improvements, planning and zoning, general administrative services and water utility service.

The following is a summary of the more significant policies.

(a) Financial Reporting Entity

For financial reporting purposes, in accordance with the *Codification of Governmental Accounting and Financial Reporting Standards*, Section 2100, the Village of Peoria Heights, Illinois, is a primary government in that it is a village with a separately elected governing body - one that is elected by the citizens in a general, popular election and is fiscally independent of other units of government.

GASB Statement No. 61, *The Financial Reporting Entity, Omnibus* defines the governmental financial reporting entity as being made up of two parts, the primary government and those component units for which the primary government is financially accountable. The Village has developed criteria to determine whether other entities are component units of the Village. Component units are legally separate organizations for which the elected officials of the Village of Peoria Heights are financially accountable. The Village of Peoria Heights would be considered financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will (significantly influence the programs, projects, activities, or level of services performed or provided by the organization) on the organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Village of Peoria Heights (i.e., entitled to or can access the organization's resources, is legally obligated or has otherwise assumed the obligation to finance deficits of, or provide financial support to the organization, or is obligated in some manner for the debt of the organization). If an organization is fiscally dependent on the Village of Peoria Heights, the Village is considered financially accountable regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

A blended component unit, although legally separate entities, is, in substance, part of the Village's operations and therefore data from this unit is combined with the data of the primary government. A discretely presented component unit is reported in a separate column/row in the government-wide statements to emphasize that it is legally separate from the Village.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial Reporting Entity (Continued)

Based on the criteria set forth by the Governmental Accounting Standards Board, management has determined that the Peoria Heights Police Pension Fund and the Peoria Heights Public Library (Library) are component units of the Village.

The Peoria Heights Police Pension Fund was established to provide retirement, death and disability payments to the police of the Village or their beneficiaries. The Fund is a single-employer defined benefit pension plan. Contribution levels are mandated by Illinois Compiled Statutes and may be amended only by the Illinois legislature. The year end for the fund is April 30 and the fund has been reported as a blended component unit as a fiduciary fund in the Village's financial statements.

The Peoria Heights Public Library was organized to serve the informational, cultural, educational, and recreational needs of all the residents within the Library's boundaries. The year end for the Library is April 30. The Peoria Heights Public Library is fiscally dependent on the Village and, therefore, the Village is considered to be financially accountable for the Library. The Library is reported as a discretely presented component unit of the Village.

The Peoria Heights Public Library audited financial statements can be obtained from the Library at 816 E. Glen Avenue, Peoria Heights, Illinois 61616.

(b) Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities, including the discretely presented component unit) report information on all of the nonfiduciary activities of the Village and its component units. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. For the most part, the effect of interfund activity has been removed from these statements. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Measurement Focus and Basis of Accounting

Basis of accounting defines when revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of their recognition.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied for budgetary purposes. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 120 days of the end of the current fiscal period, except for property taxes which must be collected within 60 days to be considered available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property taxes, sales and income taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

(d) Financial Statement Presentation

The accounts of the Village are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, and revenues and expenditures/expenses.

Governmental Funds are those through which governmental functions of the Village are financed. The acquisition, use and balances of the Village's expendable resources and the related liabilities are accounted for through governmental funds. The Village reports the following major governmental funds:

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

(d) Financial Statement Presentation (Continued)

General Fund - The General Fund is the general operating fund of the Village. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. This fund pays the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Community Development Fund - This capital projects fund is used to account for development projects being carried out by the Village. Such projects are financed by proceeds from general obligation bonds, loan proceeds, and tax increment financing activities.

Police Pension Levy Fund - This special revenue fund is used to account for property taxes levied for the employer contribution to the Peoria Heights Police Pension Fund.

Additional governmental fund types which are combined as nonmajor funds are as follows:

Special Revenue Funds - These funds are used to account for Village activities which are primarily financed by special restricted revenue sources such as governmental grants, restricted sales taxes or general property taxes levied for specific purposes.

Capital Project Funds – These funds are used to account for renovation or construction projects being carried out by the Village.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

Proprietary Fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows, which are similar to those often found in the private sector. The only propriety fund of the Village is classified as an enterprise fund.

Enterprise Fund – The Waterworks Fund is used to account for the operations of the water distribution system for residents and businesses of the Village.

Fiduciary Fund types are used to account for assets held by a governmental unit in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The Village has the following fiduciary fund type:

Pension Trust Fund – The pension trust fund accounts for the assets of the Village's police pension plan fund, which accumulates resources for retirement, death and disability benefits to the police of the Village or their beneficiaries.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal on-going operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

(e) Budget Policy

The Village follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) The Village Board administration committee submits to the Village Board, a proposed operating budget for the fiscal year commencing the following May 1. The budget includes proposed expenditures and the means of financing them.
- (2) In April, public hearings are conducted to obtain public comments.
- (3) Prior to May 1, the budget is legally enacted through passage of an appropriation ordinance by the Village Board.
- (4) The Village is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that increase the total expenditures of any fund must be approved by the Village Board.

Annual budgets are prepared and approved on the modified accrual basis for all funds. An annual budget is also prepared for the enterprise fund. The legal level of control is considered to be at the fund level. The budget presented is the original budget, as there were no amendments made during the year.

(f) Cash and Investments

The Village's cash is comprised of demand accounts and savings accounts.

The Village invests in allowable investments under the Illinois Compiled Statutes. These included (a) interest-bearing savings accounts and certificates of deposit, (b) bonds, notes, certificates of indebtedness, treasury bills, or other securities which are guaranteed by the full faith and credit of the United States of America, and (c) short-term discount obligations of the Federal National Mortgage Association.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Cash and Investments (Continued)

Investments consist of certificates of deposit and deposits in the Illinois Funds. Investments are stated at cost, which approximates fair value.

The deposits and investments of the Peoria Heights Police Pension Fund and the Peoria Heights Public Library are held separate from those of the Village of Peoria Heights, Illinois. Investments in mutual funds are reported at fair value, with market fluctuations credited or charged to current year income. Certificates of deposit are stated at cost, which approximates fair value.

(g) Inventory

Inventory is stated at the lower of cost or market on a first-in, first-out (FIFO) basis.

(h) Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. The Village's property tax is levied each year at the time the budget for the ensuing year is passed and is extended against the assessed valuation of the Village on the following January 1. Normally, taxes are due and payable in two installments in June and September at the County Collector's office. Sale of taxes on any uncollected amounts is prior to November 30 or shortly thereafter by the County Collector's office. Final distribution to all taxing bodies, including Village's funds, is usually made prior to December 31st by the County Collector's office.

Property taxes levied for the 2016 levy year have been recognized as assets, net of an estimated uncollectible amount of 2 percent, and related deferred inflows of resources as these taxes will be collected and are planned for budget purposes to be used in fiscal year 2018.

(i) Interfund Receivables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

(j) Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with a useful life greater than one year and an initial, individual cost of more than \$1,500 for equipment and \$20,000 for buildings and improvements and infrastructure assets.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Capital Assets (Continued)

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. Infrastructure assets are being accounted for prospectively beginning in 2005, as permitted by Governmental Accounting Standards Board Statement No. 34.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the Village is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Furniture and fixtures	3-20
Equipment	5-10
Improvements other than buildings	7-20
Buildings and improvements	20-50
Fire hydrants, water mains and meters	20
Wells	20-50

(k) Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and therefore will not be recognized as expenditure/expense until then. The Village reports deferred outflows of resources related to pension expense to be recognized in future periods and for pension contributions made after the measurement dates.

(l) Deferred Inflows of Resources

In addition to liabilities, the statement of net position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds report unavailable revenues from one source, property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the Village's government-wide statements, property tax revenue remains as a deferred inflow of resources under the full accrual basis of accounting and will become an inflow in the year for which they are levied and budgeted for. Additionally, the Village has deferred inflows related to pension expense to be recognized in future periods.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Pensions

For purposes of measuring the net pension liability and deferred inflows and outflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Village pension plans and additions to/deductions from the Village pension plans fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognize when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(n) Compensated Absences

It is the Village's policy to permit employees to accumulate earned but unused vacation benefits. All vacation pay benefits are accrued when incurred in the governmental and government-wide financial statements.

(o) Long-term Liabilities

In the government-wide and proprietary fund type financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using a method which approximates the effective interest method. Issuance costs are reported as expenditures when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt and capital lease obligations issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Debt principal payments are reported as expenditures when paid.

(p) Statement of Cash Flows

For purposes of the statement of cash flows, the Waterworks Fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

(q) Net Position/Fund Balance Classifications

In the government-wide financial statements, the Village's net position is classified as follows:

Invested in Capital Assets, Net of Related Debt - This represents the Village's total investment in capital assets, net of accumulated depreciation and related debt.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(q) Net Position/Fund Balance Classifications (Continued)

Restricted Net Assets - This includes resources that the Village is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

Unrestricted Net Assets - This includes resources derived from user charges for services, unrestricted state revenues, interest earnings, and other miscellaneous sources. These resources are used for transactions relating to general operations of the Village and may be used at the discretion of the Board to meet current expenses for any purpose.

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Village is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent.

The fund balance classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Trustees. These amounts cannot be used for any other purpose unless the Board of Trustees removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned: This classification includes amounts that are constrained by the Village's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Trustees or through the Board of Trustees delegating this responsibility to the Mayor through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.

Unassigned: This classification is the residual fund balance for the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 1 - DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(q) Net Position/Fund Balance Classifications (Continued)

The Village would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

The Village does not have a formal minimum fund balance policy.

(r) Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues, expenditures, gains, losses, and other changes in fund equity during the reporting period. Actual results could differ from those estimates.

NOTE 2 - CASH AND INVESTMENTS

The Village invests in allowable investments under the Illinois Compiled Statutes. These include (a) interest-bearing savings accounts and certificates of deposit, (b) bonds, notes, certificates of indebtedness, treasury bills, or other securities which are guaranteed by the full faith and credit of the United States of America, and (c) short-term discount obligations of the Federal National Mortgage Association.

As of April 30, 2017, the Village (primary government) had the following cash and investments:

Cash and investments	\$ 1,472,591
Restricted assets - cash and investments	<u>75,530</u>
Total cash and investments	<u>\$ 1,548,121</u>
Demand deposits and cash on hand	\$ 356,760
Certificates of deposit	580,212
Illinois funds	<u>611,149</u>
Total cash and investments	<u>\$ 1,548,121</u>

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village does have a deposit policy for custodial credit risk. As of April 30, 2017, the bank balance of the Village's deposits, which includes demand deposits, mutual funds, and certificates of deposit, was \$1,108,013. Of the bank balance, \$962,514 was covered by federal depository insurance and \$145,499 was covered by collateral held by the Village's agent in the Village's name. Therefore, at April 30, 2017, none of the Village's bank balances were exposed to custodial credit risk.

The Illinois Funds have not been included in deposits above. The Illinois Funds are pooled investments held by the State of Illinois but not in the Village's name.

Illinois Funds

The Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. The Illinois Funds have been classified as cash and investments in that they have the general characteristics of demand deposit accounts as the Village may deposit cash at any time and withdraw cash at any time without prior notice or penalty. The monies invested in the Illinois Funds are pooled together and invested in US Treasury bills and notes backed by the full faith and credit of the US Treasury. In addition, monies are invested in fully collateralized time deposits in Illinois financial institutions, in collateralized repurchase agreements, and in treasury mutual funds that invest in US Treasury obligations and collateralized repurchase agreements.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Village does not have a policy for interest rate risk. Investments consist of deposits in the Illinois Funds that has a maturity of one year or less. Certificates of deposit also have a maturity of one year or less.

Concentration Risk

Concentration risk is the risk associated with not having a diversified investment portfolio to reduce the risk of loss due to over concentration in a specific maturity, issuer, or class of securities. The Village does not have an investment policy that addresses concentration risk. At April 30, 2017, the Village had approximately 39 percent of its cash and investments invested in the Illinois Funds.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to a debt investment will not fulfill its obligations. State law limits which types of securities that the Village can invest in. At April 30, 2017, the Illinois Funds are rated AAAM by Standard & Poor's.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Deposits and Investments – Pension Trust Fund (Fund)

The Police Pension Trust Fund may invest funds as authorized by the Illinois Compiled Statutes, generally in obligations of the United States, the State of Illinois and its local districts, certain insurance contracts, insured deposits of federal and state savings and loans, banks, and credit unions, and certain common and preferred stocks.

The Fund's investment policy requires all amounts deposited with financial institutions in excess of any Federal Deposit Insurance Corporation (FDIC) insurance be collateralized by eligible securities. As of April 30, 2017, \$211,630 of Fund's deposits (consisting of cash, short-term investments and certificates of deposit) were uninsured and uncollateralized and therefore, exposed to custodial credit risk.

The following table presents the investments by type and maturities of the Pension Trust Fund's investments as of April 30, 2017:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Maturities (In Years)</u>		<u>Carrying Amount</u>
		<u>Less Than One</u>	<u>1-5</u>	
Certificates of deposit	<u>\$ 1,149,002</u>	<u>\$ 452,952</u>	<u>\$ 696,050</u>	<u>\$ 1,149,002</u>
Mutual funds	<u>\$ 57,682</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 57,682</u>
Insurance contracts	<u>\$ 139,723</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 139,723</u>

Deposits and Investments – Peoria Heights Public Library (Library), Discretely Presented Component Unit

The Library's deposits include demand deposits, money market accounts and certificates of deposit.

Custodial credit risk is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library does have a deposit policy for custodial credit risk. As of April 30, 2017, the bank balance, excluding the Illinois Funds, of the Library's deposits was \$168,882. The entire bank balance was covered by federal depository insurance, and therefore, was not exposed to custodial credit risk.

The following funds were included in cash and investments on the statement of net position at April 30, 2017 but not included in the custodial credit risk analysis above:

Illinois Funds Money Market Funds	<u>\$ 232,346</u>

NOTE 5 - LONG-TERM DEBT

Primary Government – Governmental Activities

Changes in long-term debt for governmental activities for the year ended April 30, 2017 were as follows:

	<u>Beginning</u> <u>Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending</u> <u>Balance</u>	<u>Due Within</u> <u>One Year</u>
Governmental activities:					
Illinois Finance Authority Loan	\$ 125,000	\$ -	\$ 12,500	\$ 112,500	\$ 12,500
Notes payable	690,878	515,407	199,435	1,006,850	72,566
Bonds payable	<u>58,000</u>	<u>1,676,362</u>	<u>-</u>	<u>1,734,362</u>	<u>-</u>
	<u>\$ 873,878</u>	<u>\$ 2,191,769</u>	<u>\$ 211,935</u>	<u>\$ 2,853,712</u>	<u>\$ 85,066</u>

Repayment of long-term debt will be funded through the general fund from general revenue sources and bond and interest fund from sales and real estate taxes from the business development districts.

Long-term debt at April 30, 2017 is comprised of the following:

Illinois Finance Authority loan dated October 4, 2005, original amount was \$250,000. The loan is interest free and due in annual installments of \$12,500 through November 1, 2025. The proceeds were used to fund part of the purchase price of a new aerial ladder fire truck.

Note payable with a bank due in annual payments of \$23,965, with interest at 3.90 percent and is due October 2020. The note is secured by a vehicle (dump truck).

Note payable with a bank dated September 26, 2016, original amount was \$145,000. The note is due in quarterly installments of \$7,446, including interest at 2.52 percent, commencing March 19, 2019 through September 2023. Interest only payments are due quarterly through December 19, 2018. The note is unsecured.

Note payable with a bank due in monthly installments of \$2,048, with interest at 10.45 percent and is due May 2019. The note is secured by certain equipment.

Note payable with a bank due in annual payments of \$36,737, with interest at 2.75 percent. The note is due March 2026 with a final payment of \$190,557. The note is secured by a fire truck.

Note payable with a bank dated August 26, 2016, original amount was \$600,500. The note is due in quarterly installments of \$11,462, including interest at 2.52 percent, commencing November 2, 2017 through September 2021 with a balloon payment of \$483,958. Interest only payments are due quarterly beginning November 2, 2016 through November 2, 2017. The note is unsecured.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS

April 30, 2017

NOTE 5 - LONG-TERM DEBT (CONTINUED)

Primary Government – Governmental Activities

Taxable General Obligation Bonds, series 2016 dated April 28, 2016, original issue amount of \$1,850,000. The purchase price for the bonds were paid in multiple advances as funds are drawn from Heritage Bank of Central Illinois. As of April 30, 2017, \$1,658,000 had been drawn on the bonds. The issue provides for serial retirement of principal due each April 28, commencing April 28, 2019, through 2036. Interest is due on April 28 and October 28 of each year, commencing October 28, 2016, (interest will be capitalized through April 28, 2018) at an interest rate of 5.125 percent.

The Village has pledged a portion of future sales and business development district tax revenue related to Trefzger's Bakery to repay \$1,850,000 in Taxable General Obligation Bonds, series 2016. The 2016 series bonds are payable from a portion of sales and business district tax revenues and are payable through April 2036. There was no principal or interest paid on the bonds for the year ended April 30, 2017. However, interest of \$76,362 was capitalized and added to the principal of the bonds during 2017.

The annual debt service requirements to maturity for the Illinois Finance Authority Loan as of April 30, 2017, is as follows:

Year Ending <u>April 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 12,500	\$ -	\$ 12,500
2019	12,500	-	12,500

b. Deficit fund balances of individual funds.

The following fund had a deficit fund balance at April 30, 2017:

Nonmajor governmental fund:	
Tax Increment Financing	<u>\$ 166,417</u>

The deficit in the tax incremental financing fund will be eliminated through future incremental property tax receipts.

NOTE 8 - DEFINED BENEFIT PENSION PLANS

Illinois Municipal Retirement Fund

Plan Description

The Village's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Village's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multiple-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 8 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Illinois Municipal Retirement Fund (Continued)

Benefits Provided (continued)

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2016, the following employees (Village of Peoria Heights including the Library) were covered by the benefit terms:

	IMRF
Retirees and Beneficiaries currently receiving benefits	27
Inactive Plan Members entitled to but not yet receiving benefits	23
Active Plan Members	<u>23</u>
Total	<u><u>73</u></u>

Contributions

As set by statute, the Village's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's annual contribution rate for calendar year 2016 was 10.13%. For the fiscal year ended April 30, 2017, the Village's portion of the contribution to the plan was \$96,943. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The Village's net pension liability was measured as of December 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 8 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2016:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.75%.
- Salary Increases were expected to be 3.75% to 14.50%.
- The Investment Rate of Return was assumed to be 7.50%.
- Projected Retirement Age was from the Experience-based Table of Rates specific to the type of eligibility condition, last updated for the 2014 valuation pursuant to an experience study of the period 2011 to 2013.
- The IMRF specific rates for mortality (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For Disabled Retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For Active Members, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- There were no benefit changes during the year.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2016:

<u>Asset Class</u>	<u>Portfolio Target Percentage</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	38%	6.85%
International Equity	17%	6.75%
Fixed Income	27%	3.00%
Real Estate	8%	5.75%
Alternative Investments	9%	2.65-7.35%
Cash Equivalents	<u>1%</u>	2.25%
Total	<u>100%</u>	

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 8 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Illinois Municipal Retirement Fund (Continued)

Single Discount Rate

A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of the most recent valuation, the expected rate of return on pension plan investments is 7.50%, the municipal bond rate is 3.78%, and the resulting single discount rate is 7.50%.

Changes in the Net Pension Liability

The following table shows the components of the change in the Village's net pension liability for the calendar year ended December 31, 2016 for Regular Plan members:

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	<u>(A)</u>	<u>(B)</u>	<u>(A) - (B)</u>
Balances at December 31, 2015	\$ 5,243,070	\$ 4,622,439	\$ 620,631
Changes for the year:			
Service Cost	115,702	-	115,702
Interest on the Total Pension Liability	387,979	-	387,979
Changes of Benefit Terms	-	-	-
Differences Between Expected and Experience of the Total Pension	(224,212)	-	(224,212)
Changes of Assumptions	(6,323)	-	(6,323)
Contributions - Employer	-	113,361	(113,361)
Contributions - Employees	-	50,359	(50,359)
Net Investment Income	-	316,785	(316,785)
Benefit Payments, including Refunds of Employee Contributions	(241,930)	(241,930)	-

Net Changes	<u>31,216</u>	<u>204,207</u>	<u>(172,991)</u>
Balances at December 31, 2016	<u>\$ 5,274,286</u>	<u>\$ 4,826,646</u>	<u>\$ 447,640</u>

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 8 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Illinois Municipal Retirement Fund (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using a single discount rate of 7.50 percent, as well as what the plan's net pension liability (assets) would be if it were calculated using a single discount rate that is 1% lower (6.50 percent) or 1% higher (8.50 percent) than the current rate:

	(6.50%) 1% Lower	(7.50%) Current Discount Rate	(8.50%) 1% Higher
Net pension liability (asset)	\$ <u>1,133,566</u>	\$ <u>447,640</u>	\$ <u>(109,964)</u>

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended April 30, 2017, the Village recognized pension expense of \$56,964. At April 30, 2017, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Deferred Amounts Related to Pensions</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Deferred Amounts to be Recognized in Pension Expense in Future Periods		
Differences between expected and actual experience	\$ -	\$ 251,281
Changes of assumptions	2,967	4,610
Net difference between projected and actual earnings on pension plan investments	<u>219,109</u>	<u>-</u>
Total Deferred Amounts to be recognized in pension expense in future periods	<u>222,076</u>	<u>255,891</u>
Pension Contributions made subsequent to the Measurement Date	<u>31,377</u>	<u>-</u>
Total Deferred Amounts Related to Pensions	<u>\$ 253,453</u>	<u>\$ 255,891</u>

Amounts reports as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending</u> <u>December 31,</u>	<u>Net Deferred</u> <u>Inflows</u> <u>Of Resources</u>
2017	\$ (40,470)
2018	(26,666)
2019	28,185
2020	<u>5,136</u>
	<u>\$ (33,815)</u>

Police Pension Fund

Plan Description. The Village's defined benefit pension plan for police officers, the Peoria Heights Police Pension Fund (Fund), provides retirement, disability, post retirement increases, and death benefits to plan members and beneficiaries. The Fund is administered by a board of trustees which acts as the administrator of the plan. The Fund is a single-employer defined benefit pension plan. Employer contributions levels of the Police Pension Fund are mandated by Illinois State Statute (Chapter 40, Article 3) and may also be amended only by the Illinois legislature. The Fund issues a publicly available financial report that includes financial statements and required supplementary information for that plan. Those reports may be obtained by writing the plan at the following address:

Peoria Heights Police Pension Board
4901 N. Prospect Road
Peoria Heights, Illinois 61616

Benefits and refunds of the Fund are recognized when due and payable in accordance with the Plan.

The Village's annual pension cost for the current and prior years and related information for the Fund is not available as of April 30, 2017.

NOTE 9 – FUND BALANCES/NET ASSETS

Restricted fund balances/net assets represent amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 9 – FUND BALANCES/NET ASSETS

At April 30, 2017, the Village’s net position/fund balances were restricted for the following purposes:

Motor Fuel Tax Fund – street maintenance and improvements	\$ 193,230
Business Development Fund – improvements within the business Development district	49,484
Bond and Interest Fund – payment of long-term debt principal and interest	863
Total	\$ 243,577

Assigned fund balances represent amounts constrained by the Village’s intent to use them for a specific purpose. At April 30, 2017, the Village’s fund balances were assigned for the following purposes:

Capital Improvement Fund – improvements to the Village’s properties	\$ 215,000
Local Improvement Fund – improvements to property within the Village	9,520
Total	\$ 224,520

NOTE 10 - COMMITMENTS

Collection and Disposal of Refuse Contract

The Village has contracted with a private contractor to provide collection and disposal service for garbage and landscape waste for the period January 1, 2014 through December 31, 2018. The minimum commitments under this contract are as follows:

Year ending April 30:

2018	\$ 372,262
2019	263,995
	\$ 636,257

The total expenditures under this contract for the year ended April 30, 2017 were \$361,420.

Recycling Contract

The Village has contracted with a private contractor to provide a residential recycling program for the period September 1, 2013 through August 31, 2018. The minimum commitments under this contract are as follows:

Year ending April 30:

2018	\$ 106,176
2019	35,844
	\$ 142,020

VILLAGE OF PEORIA HEIGHTS, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2017

NOTE 10 – COMMITMENTS (CONTINUED)

The total expenditures under this contract for the year ended April 30, 2017 were \$102,372.

Note Payable

On December 14, 2016, the Village entered into a promissory note payable to a bank in the amount of \$1,500,000. The proceeds from the promissory note will be taken in multiple advances from Morton Community Bank as the funds are needed for water main and meter replacements and water tower maintenance. As of April 30, 2017, \$432,843 had been drawn on the note and \$1,067,156 was remaining for the Village's use.

NOTE 11 – RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts, theft of, damages to and destruction of assets, errors and omissions, injuries to employees, natural disasters, and medical claims of its employees and their dependents. The Village purchases commercial insurance for all risks of loss. During the year ended April 30, 2017, there were no significant reductions in insurance coverage. Settled claims from these risks have not exceeded the commercial coverage in any of the past three fiscal years.

NOTE 12 – SUBSEQUENT EVENTS

Management evaluated subsequent events through December 23, 2017, the date the financial statements were available to be issued.

Notes to Schedule:

*Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2016 Contribution Rate**

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2016 Contribution Rates:

Actuarial Cost Method: Aggregate entry age normal
 Amortization Method: Level percentage of payroll, closed
 Remaining Amortization Period: 27-year closed period until remaining period reaches 15 years (then 15 year rolling period)
 Asset Valuation Method: 5-year smoothed market; 20% corridor
 Wage Growth: 3.50%
 Price Inflation: 275%, approximate; No explicit price inflation assumption is used in this valuation.
 Salary Increases: 3.75% to 14.50%, including inflation
 Investment Rate of Return: 7.50%
 Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2014 valuation pursuant to an experience study of the period 2011 to 2013.
 Mortality: For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
